Directory of
Public Agencies
in the South Island
Hill & High
Country

Compiled by I.G.C. Kerr
Nan Thomson
K.R. Lefever

Published by Tussock Grasslands
& Mountain Lands Institute
Special Publication No.28
PUBLIC AGENCY DIRECTORY

This directory, published by the Centre for Resource Management, is a comprehensive list of professional and technical staff engaged in research, extension, development and administration in the hill and high country of the South Island of New Zealand.

The Centre hopes to revise and up-date this directory regularly, with the aim of helping to improve communications between people with a common interest in the hill and high country.

It is inevitable, because of staff changes, that there will be errors and omissions in each publication. Please let us know of any corrections or additional information that can be included in the next edition.

The authors hope that the directory will provide an easily accessible source of information on personnel connected in any way with the hill and high country. We gratefully acknowledge the assistance received from the public agencies concerned and from the Lincoln College Computer Centre staff.
