Who are you working with?

Who is responsible for managing the data?

Where will you store and backup your data?

Do you need special tools?

Supercomputing  
(Free for post-graduate students in NZ!)  
or special software?

Are there Commercial, Intellectual Property, Cultural, Ethical or Regulatory restrictions on your data?

Will they affect your ability to publish your data?

Where will you publish your data?

Will you need to embargo your data or just publish your metadata?
