

Waihao River Flood Plain

1994 Flood photographs

**Collected by R.J.Connell during Masters degree dissertation
work.**

Notes: Underneath each photograph are the code, a description including the direction of the photograph, the time and the person who took the photograph who was generally a resident of the Waihao River Flood Plain (apologies for any errors). A few credits are missing, apologies to those concerned.

Many of the photographs were used to obtain the observed flood levels used in the dissertation research work. The photographs used can be found in tables of appendices 4, 11 and 12 in the dissertation.
